WHY?

- Not sustainable to keep putting rubbish in holes in the ground we are running out of holes
- Landfill sites cause methane gas emissions and pollution
- Statutory recycling targets were set for each local authority. SDDC's last set target was 21% by 2005/06. SDDC met this target by reaching 24% in 2004/05. SDDC are currently recycling/composting 34% of its waste.

WHAT?

- Compost collection scheme
- ♦ SDDC refuse bins contain around 40% of compostable material
- ♦ Over 34,500 households now participate in the scheme

HOW?

- ♦ All households issued with a brown bin same size as the black bin
- ◆ Small kitchen bin supplied (see photo attached).
- ◆ Smaller bins or sacks can be made available (see photo's attached)

- ♦ Brown bin emptied one week, black bin emptied the next week
- ◆ Cost effective system
- ♦ Larger black bin if required for families of six or more
- ◆ Scheme closes down for four/five weeks in December/January to allow for Christmas Service closedown.
- Brown waste taken to a covered composting facility in Etwall and processed into a compost product

WHEN?

South Derbyshire District Council Amendments To Waste Management:

Kitchen & Waste Composting

The attached files have been sent to Church Broughton Parish Council by South Derbyshire District Council following the presentation at the March 2008 Parish Council Meeting.

The main file – "PCPresentation.pdf" gives some background to what is happening and why, as well as identifying the dates that the exhibitions will be made.

The other two files are for information only and detail where optional bags can be purchased to be used with the Composting Bins
